

INFORMATION SECURITY POLICY

Yıldız Holding A.Ş. is committed maintaining robust information security risk management:

- To ensure that data is processed effectively, accurately, quickly and safely;
- To comply with all customer requirements and legal obligations,
- To manage risks to the confidentiality, accessibility and integrity of all information assets belonging to our company, our customers, suppliers and business partners;
- To ensure that every colleague is aware of their information security responsibilities and acts accordingly;
- To continually improve information security controls.
